WORK EXPERIENCE

DEC 2025

SIEMENS ENERGY AG
ERLANGEN, GERMANY

Working Student UI UX Designer

Supporting the design and research of user interfaces for energy management systems, ensuring intuitive navigation and optimal user experience.

NOV 2025 - MAR 2026

DRÄGER SAFETY AG & CO. KGAA
LÜBECK, GERMANY

Master Thesis Student

Using various user experience research and user experience design methods to identify problems and potential in relation to current working methods

Deriving requirements for the process tool & Prioritizing features

Iteratively creating, testing, and adapting the graphical user interface until a finalized prototype with functional elements was achieved

AUG 2025 - OCT 2025

DRÄGER SAFETY AG & CO. KGAA
LÜBECK, GERMANY

User Experience Design Intern

Creating an overview of the new user experience process as part of an update.

Developing a concept for the information levels contained therein.

Developing presentation content and posters (graphics and explanations) on various topics.

Supporting and documenting a pilot project team effort with the goal of translating insights into user experience and collaboration with other development areas into an improved process

AUG 2024 - JUL 2025

BAUHAUS UNIVERSITÄT WEIMAR
WEIMAR, GERMANY

Student Research Assistant

Developed and prototyped user-centered digital products, translating research into interactive designs.

Coordinated user studies, applying methodologies to generate actionable insights for design and research.

Created graphic assets for digital and physical applications, enhancing engagement in research projects.

AUG 2022 - FEB 2023

THINK201
BANGALORE, INDIA

Design Intern

Designed and developed the company's case study listing page, crafting detailed case studies to showcase completed projects.

Designed user flows, wireframes, and high-fidelity UI prototypes for CSR projects, delivering impactful client solutions.

Created an optimized landing page for Stolo, an options trading app, boosting user engagement and accessibility.

DEC 2021 - JUN 2022

ULA
BANGALORE, INDIA

UI UX Design Intern

Designed multiple screens for the Teman ULA app, meeting evolving project requirements.

Conducted heuristic evaluations to ensure alignment of final designs with prototypes.

EDUCATION

OCT 2023 - JUL 2026

BAUHAUS UNIVERSITÄT WEIMAR
WEIMAR, GERMANY

MSc in Human Computer Interaction

Developed and prototyped user-centered digital products based on research findings.

Conducted user studies and applied research methodologies to enhance usability and created graphic assets for digital and print materials, improving research engagement.

AUG 2018 - JUL 2022

VISVESHVARAYA TECHNICAL UNIVERSITY
BANGALORE, INDIA

BE in Computer Science & Engineering

Created branded social media content for events and the department magazine INFINITY (2021-22).

Led two Figma workshops, training peers and juniors in design fundamentals.

PROJECTS

NOV 2024 - JUL 2025

BAUHAUS UNIVERSITÄT WEIMAR
WEIMAR, GERMANY

Understanding Body-Centered UX Design for Online Fashion Shopping

Conducting user interview, prototype testing, analysing the results. Designed wireframes for the website.

Assisted in writing the paper abstract and the long detailed content of paper.

Co-authored the paper, accepted by CHI '26

OCT 2024 - MAR 2025

BAUHAUS UNIVERSITÄT WEIMAR
WEIMAR, GERMANY

UX4UX - Web Based Tool for Usability Testing for Medical Researchers

Designing and organizing user studies focused on wearables to understand user behavior and preferences.

Creating user-centered UI designs to enhance usability and overall user experience.

Conducting usability testing through prototyping to evaluate design effectiveness and iterating based on feedback.

APR 2024 - SEPT 2024

BAUHAUS UNIVERSITÄT WEIMAR
WEIMAR, GERMANY

Smart Cities for Bridging the Urban-Rural Divide

Designed and organized workshops to engage users and gather valuable insights for the project.

Analyzed research data to inform design decisions and improve user experience.

Presented the project at Summaery 2024, showcasing findings and solutions to a broader audience.

Co-authored and published a research paper. DOI: [10.1145/3681716.3689444](https://doi.org/10.1145/3681716.3689444)
